I M B M istanbul matematiksel bilimler merkezi
istanbul center for mathematical sciences

IMBM Mathematics Days IV

15:00 - 15:50: Cihan Okay (Bilkent University)
Homotopical approach to quantum contextuality

16:00 - 16:50: Başak Gürel (University of Central Florida)
Symplectic topology and dynamics of pseudo-rotations

17:00 - 17:50: Yasemin Kara (Boğaziçi University)
Solving Fermat Type Equations via Modular Approach

18:00 - 18:50: Hasan İnci (Koç University)
On the geometry of the Euler equations

Date: Friday, October 16, 2020
Place : IMBM Seminar Room, Boğaziçi University South Campus
