Noncommutative Geometry Workshop
Noncommutative Geometry Days in Istanbul

July 12, 2011 (IMBM Seminar Room)
- 10:00 M. Khalkhali (University of Western Ontario)
  Spectral invariants of NCG.
- 11:00 Coffee Break
- 11:30 G. Sharygin (ITEP)
  Twisting cochains and chracteristic classes of combinatorial objects.
- 12:30 Lunch Break
- 14:00 M. Hassanzadeh (University of New Brunswick)
  Equivariant Hopf-Galois (co)extensions.

July 13, 2011 (IMBM Seminar Room)
- 10:00 U. Kraehmer (University of Glasgow)
  Hopf algebroids and cyclic cohomology.
- 11:00 Coffee Break
- 11:30 C. Kassel (University of Strasbourg)
  Cohomology of the Hopf algebra of functions on a finite group.
- 12:30 Lunch Break
- 14:00 I. Ikeda (Yeditepe University)
  Nonabelian idelic constructions and motivic Galois group.

July 14, 2011 (IMBM Seminar Room)
- 10:00 L. El Kaoutit Zerri (University of Granada)
  Categories of comodules and chain complexes of modules.
- 11:00 Coffee Break
- 11:30 G. Böhm (Research Institute for Particle and Nuclear Physics, Budapest)
  Generalizations of Hopf algebras and unifying framework.
- 12:30 Lunch Break
- 14:00 A. Banerjee (Ohio State University)
  Hecke operators and line bundles over modular curves.

July 15, 2011 (IMBM Seminar Room)
- 10:00 Ö. Ceyhan (University of Amsterdam)
  Feynman integrals and multiple zeta values.
- 11:00 Coffee Break
- 11:30 G. Landi (University of Trieste)
  Gauge fields over noncommutative manifolds.
- 12:30 Lunch Break
- 14:00 F. D'Andrea (University of Naples)
  Metric aspects of Moyal plane.
- 15:00 Coffee Break
- 15:30 J. Bhowmick (University of Oslo)
  Quantum isometry groups.

Place: IMBM Seminar Room, South Campus Boğaziçi University

This workshop is sponsored by TÜBİTAK (project no. 107T897), and Boğaziçi University.
